### A Letter From the Executive Director and Founder, Dermoth Mattison

As we move into this festive season, I want to take a moment to celebrate our recent wins and the incredible spirit that defines our community. From our scholars' successful performances on our first round of testing to the dedication our teachers show each day, we are gradually achieving our goal of reaching ninety percent proficiency.

The holidays are a time to reflect, and I am truly thankful for each student, family, and team member who make South Shore Charter School such a special place to learn and grow. Let's carry this momentum and joy into the new year with continued focus and collaboration.

Wishing you all a restful and joyful holiday season.

## Reminders

- This December also included our annual Holiday Production. This special show is a time where scholars spread the holiday cheer in song and music. This year was extra special as it showcased recorder selections from our third graders! They were simply incredible!
- South Shore Charter School will be closed from December twenty third up until January second. School will be back in session on January fifth.
